Short Description:

Updates to Kirkpatrick Park: Replace aging playground equipment, swings and shade structures

Long Description:

The existing playground at the Kirkpatrick Park is in currently unusable. There are broken slides and other parts in disrepair making it unsafe.

This project will allow for a new playground to be added in place of the existing. will be repaired to make all parts usable and be safe for children to use again. A new playground structure and play surface that meets current safety standards will be added.

In addition, some shade covers will be added to the new structure to provide some areas of shade on the playground.

Specifically, the following would be completed:

- New pour in play surface adding to the playground area.
- New playground structure installed.
- Shade covers placed in various spots places on the new playground structure.

Metro Comments:

- Redo the entire playground and put a new play structure there with a new PIP attenuation surface underneath.
- Redo the swings with a new attenuation surface underneath and EPDM wear tiles under belt swings.
- Install shade structures over the swings and over bench areas to allow for shade.

This project page has been curated by a budget delegate, drawing inspiration from ideas submitted by Nashville residents until June 20, 2023. It has been shaped with initial input regarding scope and budget from a Metro department. While Metro is committed to adhering to the specified scope, adjustments or even the potential elimination of certain aspects may become necessary during implementation, influenced by site-specific or unforeseen conditions. Furthermore, the projects' funding source is from the American Rescue Plan Act (ARPA), which current guidelines require all ARPA-funded projects be completed by December 2026. Should any project be delayed or expected to be delayed beyond this deadline, it shall be subject to elimination. The implementation timeline will be rigorously monitored to ensure compliance with this crucial requirement. Any prospective alterations to the project will be subjected to rigorous scrutiny and resolution by the steering committee during their regularly scheduled meetings.
